

IBM WATSON ASSISTANT SERVICE

The screenshot displays the IBM Cloud Dashboard interface. At the top, a dark navigation bar includes the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user's account (Aravind S's Account). Below the navigation bar, the main dashboard area is titled "Dashboard" and features a sidebar with icons for various services. The central content area is divided into sections. The "For you" section highlights several resources: "Build" (Explore IBM Cloud with this selection of easy starter tutorials and services), "Get Started with Watson Studio" (Get started with using AI and Cloud Object Storage in 15 minutes), "Build a web app with Watson Speech to Text" (Deploy a conversational interface compatible with any application, device, or channel), "Get started with Watson Discovery" (Get up to speed on Watson Discovery with step-by-step tutorials, deep-dive videos, and complete examples of working code), "Smart Document Understanding Demo" (Check out this Smart Document Understanding demo to learn how this powerful feature allows you to visually apply structure to your documents), and "Use Knowledge Studio" (Use cognitive learning entities that are industry text). Below the "For you" section, there are three main cards: "User access" (Manage users), "News" (WebSphere Application Server Support Restatement), and "Planned maintenance" (View all). The "User access" card includes a link to "invite user catin".
